

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## GENERAL FUND.

This fund embraces all the revenue of the State applicable to the payment of the ordinary expenses of the State Government.

The sources from which it is derived are the annual State tax, tax on civil actions, licenses of railroad companies, plank road companies, telegraph companies, insurance companies, hawkers and peddlers, notary public fees, office fees and sales of laws and reports. The expenditures therefrom are authorized by permanent and temporary appropriations, and by the several laws requiring the Secretary of State to audit accounts. A detailed statement of the transactions in this fund will be found in Appendix "A."

The receipts and disbursements have been as follows:

SCHOOL FUND INCOME.

The interest received on School Fund investments and on the principal due for sales of school lands, constitute the School Fund Income. The amount of this Fund in the Treasury on the 1st day of June, is annually certified by the Secretary of State to the State Superintendent of Public Instruction, and by him apportioned, under the provisions of section 554 of the Revised Statutes, among the several counties of the State, for the use of common schools in the manner provided by law. The apportionment is made according to the number of children in each town, village and city, over the age of four and under the age of twenty years, as shown by the report of the State Superintendent during the year preceding.

The receipts and disbursements during the last two years have been as follows:

WISCONSIN RAILROAD FARM MORTGAGE LAND COMPANY.

Chapter 235, Laws of 1882, authorizes the Commissioners of the Wisconsin Railroad Farm Mortgage Land Company to close up the business of said corporation, and to turn over and pay to the State Treasurer all its money and bank accounts, and take his receipt therefor, and at the same time to make its report in writing, to the Secretary of State, of its proceedings under this act. Accordingly the said Commissioners paid the sum of \$8,935.09 into the Treasury, and deposited with the Secretary of State, the books together with a list of claimants to whom dividends are yet due with the amounts set opposite their respective names. Since the receipt of said money by the State, the following have been the disbursements:

**MANITOWOC AND CALUMET SWAMP LAND FUND.**

Chapter 51, Laws of 1866, conferred upon certain commissioners named therein, lands in Manitowoc and Calumet counties, to be sold for "drainage and other purposes," of those counties. The legislature of 1883, by chapter 352, revoked the trust thus created, and directed the State Commissioners of public lands to investigate and sell the residue, and, after defraying the expenses thereof, to deposit the balance in the State Treasury. From said sale arises the fund.

In conformity to directions in the law the commissioners of public lands fully investigated the matter. The official investigation of said commissioners may be found in the report of the Commissioners of Public Lands.

TAXES FOR DEFRAYING EXPENSES FOR YEARS  
1886 AND 1887.

As will be seen by the estimates of receipts and expenditures, based on preceding years, there will be no necessity of levying a state tax for general purposes for either of these years. In case, however, the legislature makes extraordinary appropriations, it will be necessary to make provision for the same.

---

*Apportionment of Taxes.*

---

## STATE TAX FOR GENERAL PURPOSES.

Chapter 195, laws of 1883, authorizes the levying of \$240,000 as a state tax for 1884, in addition to taxes required to be raised by section 247 and 260 Revised Statutes, which sums are for school purposes, and chapter 300, laws of 1883, for University fund. With the amount now in the State Treasury, together with the increased revenues from licenses paid by railway, insurance, telegraph and telephone companies, with minor sums received from other sources, which will be amply sufficient to defray the expenses of the state during the ensuing year, I have concluded to make no apportionment of this \$240,000 to the various county clerks, believing that in so doing the interests of the tax payers will be best subserved; that it is contrary to good public policy to levy a tax to lie idle in the vaults of the State Treasury. It would seem advisable that chapter 195, laws of 1883, be repealed.

## APPORTIONMENT OF TAXES.

The Secretary of State is required by section 1070, of the Revised Statutes, to certify to the county clerk of each county, on or before the second Monday of October in each year, the amount of State Tax and Special Charges apportioned to and levied upon his county. In this certificate are to be included the amounts due from counties for the support of persons in the Hospitals for the Insane and the Industrial School for Boys. These amounts are obtained from reports made by the State Board of Supervision to the Secretary of State, in pursuance of section 21, chapter 298, laws of 1881. The time prescribed in said chapter for reporting to the Secretary of State is the twentieth of October, which is after the latest date when the Secretary must certify the same to the county clerks. The law should be

---

*Details of Report.*

---

so amended as to cause these certificates from the State Board of Supervision to be made to the Secretary of State on or before the first Monday of October.

**BOUNTY ON WILD ANIMALS.**

The legislature of 1883 so amended the law relating to bounties on wild animals, that it now devolves upon the county, wherein the animal was killed, to pay to the claimant for bounty a sum equal to that paid by the State. This, with the cutting off of bounties on foxes, and reduction of one dollar per scalp on wolves, has materially reduced the amount paid by the State compared to the year 1882.

**DETAILS OF REPORT.**

For the purpose of easy reference, the full financial details required by law, and such tabular statistics as may be deemed of interest, are classified as follows:

STATE OF WISCONSIN.

REPORT

OF THE

Commissioners of Public Printing.

DEPARTMENT OF STATE,

October 10, 1884.

To His Excellency, JEREMIAH M. RUSK,

*Governor of the State of Wisconsin:*

SIR: We have the honor to submit herewith our biennial report for the term ending September 30, 1884.

The important operations of this department during the two years last past, aside from the routine work required by law, have been the completion of the printing and binding of the Geological Reports of the State, the purchase of paper and the letting of the state printing contract beginning January 1, 1885, for two years.

STATE PRINTING.

The state printing contract with David Atwood was completed December 31st, 1882, and since that time the Democrat Printing Company, of Madison, the successful bidders for doing the state printing for two years from that date, have done the work.

On July 22d of the present year, the commissioners having previously advertised in accordance with law, met in

the Secretary of State's office and proceeded to open the bids of the contestants. The following are the bids:

	Per centum of discount.
David Atwood .....	40½
Democrat Printing Company .....	42
M. J. Cantwell .....	38½

The Democrat Printing Company, of Madison, having bid the greatest per centum of discount from the maximum rates as set forth in chapter 20 of the Revised Statutes, was awarded the contract according to law. It will be seen that the next contract, which begins January 1, 1885, is not quite as low as the present one, but we consider it a very reasonable bid.

PURCHASE OF PAPER.

On account of the change in the law, providing for the printing of public documents, agricultural and other reports, the number of copies of the latter two being greatly increased, the demand for paper has of course increased correspondingly. We managed, however, by economical management, and by utilizing much of the surplus stock on hand and by a few light purchases, to run through the year 1883 without advertising for a general stock. On the 1st of August of the present year, the commissioners advertised for a stock of paper according to law, and on the 2nd day of September the commissioners met in the secretary of state's office and opened the bids.

*Purchase of Paper.*

The following is the description, size, quality and quantity of paper, and the bid of each of the contesting parties:

First class .....	\$18,759 20
Second class .....	8,250 50
Total .....	<u>\$17,009 70</u>

The bid of Harvey M. Harper, of Chicago, being the lowest in the first class paper, he was awarded the contract.

The bid of the Standard Paper Company, of Milwaukee, being the lowest on the second class paper, it was awarded the contract.

This stock of paper we think will be sufficient to meet the requirements of the state and Legislature for the next year at least.

The cost of the state printing is given in detail in the report of the Secretary of State, and it will not be worth while to repeat it here; but the following is an abstract of the amount paid for printing and binding for the the two years beginning October 1, 1882, to September 30, 1884:

## SUMMARY OF THE REPORT OF THE SUPERINTENDENT OF PUBLIC PROPERTY FOR THE TWENTY-ONE MONTHS FROM JANUARY 1, 1883, TO SEPTEMBER 30, 1884.

OFFICE OF SUPERINTENDENT OF PUBLIC PROPERTY,  
MADISON, Wis., September 30, 1884.*To His Excellency J. M. RUSK, Governor:*

I have the honor herewith to submit the following report of the affairs pertaining to this office for the period commencing January 1, 1883, and terminating September 30, 1884.

## STATIONERY.

As shown by inventory submitted with the report of this office for the year ending January 1, 1883, there were stationery supplies in my hands at that date to the value of \$3,725.47. There has come into my hands by purchase, during the period covered by this report, stationery to the value of \$2,970.30, as shown by statement of purchases herewith, marked "Exhibit A." There has been disbursed to the state and legislative officers the amount of \$4,656.12, shown by accompanying detailed statement, marked "Exhibit B." leaving on hand at this date the amount of \$2,039.65, an inventory of which is submitted with the full report.

The legislature of 1883 appropriated for the purchase of stationery for the use of state officers for the years 1883 and 1884, and for the legislative officers of 1885, the sum of \$6,000. Of that sum there remains in the treasury unexpended at this date the sum of \$3,029.70. Most of this will be expended to pay for stationery contracted for, and that must be purchased before another appropriation can be made.

## GENERAL EXPENDITURES.

The expenditures through this office under Chap. 293 of the Revised Statutes, have been swelled during the period cov-

*Furniture.*

ered by this report beyond what has been usual, by reason of the disaster to the south extension of the capitol last November. Under advice of the Governor, expenses of burying the killed and caring for the wounded and their families have been paid by the state to the extent of \$5,117.04. In other ways the enlargement of the capitol has tended to increase the labors and expenses of this office. Additional laborers have been necessary, and most of the north extension has been provided with new furniture necessary to its occupancy. Expenses incident to the session in the capitol of the National Educational Association last July; the rebuilding of the west portico and steps of the capitol, found necessary for the safety of that portion of the building; and the extension and repairing of the asphaltum walks and drive-ways in the park, are other extraordinary expenses during the past year.

The total expenditures since my report of January 1, 1883, other than for stationery, were as shown by statement herewith, marked "Exhibit C."

## FURNITURE.

The value of furniture and other movable property in the capitol can only be estimated as heretofore. Adding the amount purchased since the last report to the estimated value of what was then on hand, and deducting from the product ten per cent. per annum for wear and tear and breakage, will perhaps give as nearly as practicable the value of such property in and about the capitol at this date, as follows:

On hand Jan. 1st, 1883 (estimated).....	\$18,246 10
Purchased since last report.....	8,244 75
<b>Total to account for .....</b>	<b>\$21,490 85</b>
Deduct ten per cent. for two years.....	4,298 16
<b>On hand Sept. 30, 1884 (estimated) .....</b>	<b>\$17,192 69</b>

## FUEL.

The fuel supply for the coming year has been contracted for but not yet delivered. The enlargement of the capitol

---

increases the consumption of fuel about one-third, and provision has been made accordingly. The amount on hand at this date is estimated to be 150 tons of coal, valued at \$1,200. About six hundred tons per annum is the quantity estimated to be necessary for the enlarged building. About 400 tons was the amount annually consumed previous to the building of the extensions.

## BOOKS, PAMPHLETS, ETC.

Since January 1st, 1883, twelve thousand copies of Volume 1, and four thousand copies of Volume 4 of the report of the Geological Survey of the State have come into the custody of this office, and have been disposed of according to law. One thousand copies of each volume were reserved for sale as the law directs. But few have thus far been sold, the remainder, being, at this date, in charge of this office.

There has been realized from the sale of geological reports and other books the sum of \$664.45, which has been paid over to the state treasurer.

Two hundred copies of Shepard's Digest, purchased pursuant to chapter 243, laws of 1883, have been distributed as that statute provided. The session laws of 1883, and the report of the State Agricultural Society for 1884, received by this office since my last report, have been disposed of as the law requires. Of the latter, (12,000 copies) about one-half were delivered to the secretary of the Agricultural Society, pursuant to chapter 320, laws of 1883.

Any statement of the number and value of books and documents in charge of this office must be merely an estimate. On January 1st, 1883, the estimated value of this class of property on hand was \$34,833.25. The additions since that date, less disbursements, show that there is now on hand such property to the value of about \$37,500.00. Most of this property being subject to distribution, no attempt had been made or required up to two years ago to keep even so much as an approximate account of it.

*Exhibit "A."*

The following summary exhibits the amount of state property in charge of this office at this date, actual and estimated:

Stationery, per invoice .....	\$2,039 65
Furniture, tools, &c. (estimated) .....	17,192 69
Coal (estimated) .....	1,200 00
Books and documents (estimated).....	37,500 00
<b>Total .....</b>	<b>\$57,932 34</b>

Respectfully submitted,

W. H. BENNETT,
